

NSSA TESTED DRIVER FORM

The NSSA has instituted a Tested Driver Program to provide a means of ensuring our on going emphasis on Safety in the Sport of Show Skiing.

- All teams must have at least one tested Driver
- All drivers must be a tested driver or have a learner's permit
- At all sanctioned events (including, but not limited to: practices, exhibitions, shows, and tournaments) when more than one boat, or a boat with multiple engines is operated, at least one driver must be tested, and all other drivers must be tested or have a learner's permit. When only one class "A" boat is operated, a learner's permit will be sufficient.
- After July 1, 2006 the operator of a boat with three or more engines must be a tested driver. After July 1, 2006 any drivers with a Class "A" or "B" rating who are driving a class "C" boat, must have a class "C" learner's permit, which will be good for two years.

All Towboat Drivers for your Club / Team (Tested or Learner's Permit) must be listed below, and this form turned in with the tournament paper work (starting with the year 2001).
