

SAFESPORT INFORMATION

With several tournaments coming up and after being at the Central Regional Tournament this past weekend and seeing some of the issues people were having with Safe Sport, I reached out to the Compliance Coordinator for Safe Sport.

Here is how you make sure you are in Safe Sport compliance.

Log in to your membership profile on The USA Water Ski page.

Then look at your membership card, located in the top right corner of your membership profile. It will show your membership status and your Safe Sport status.

Then go down the page to "membership information." If this shows Safe Sport complete here but not on the card, you will need to refresh the card. If it still does not show as complete on your card, please get in touch with the compliance officer at this email address:

compliance@usawaterski.org

This is a friendly reminder that you cannot compete in any USA Waterski Sanctioned event unless you are a Member of USA Water Ski & In Safe Sport Compliance.

Remember, Tournament Officials will check all roosters for proper memberships & safesport compliance.

So please check your membership to make sure everything is up to date.
